

Olive oil was used as a kind of medicine. If a man or animal had a cut, or sore, or bruise, or bruise, olive oil was carefully poured on it. The oil was rubbed in.

Jesus told about a man who was robbed on the road to Jericho. The robbers beat this man and left him half dead. Other men came along the road. They did not stop to help. But then a man from Samaria came. He felt sad to see the hurt man. The good Samaritan poured oil into the cuts and bruises. Read about this in Luke 19:30-37.

OLIVE OIL FOR MEDICINE
