

PICTURE BOX

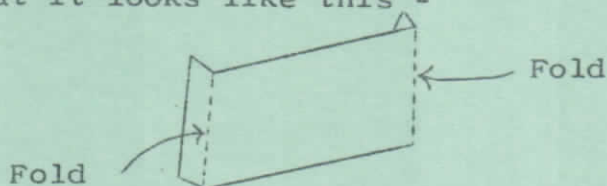

(P)

Needed:

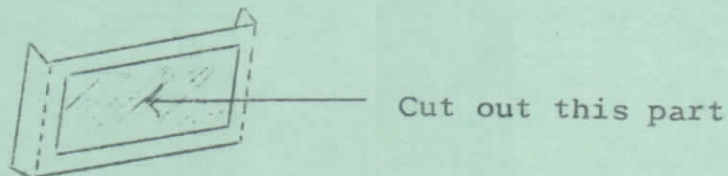

- 2 sheets of construction paper the same size
- scissors
- ruler

Make the Frame

1. Use one sheet of construction paper.
Fold back about 1 inch from the left and right side so that it looks like this -

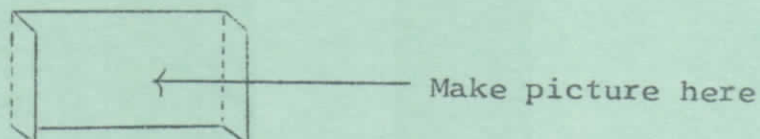

2. Now cut out an opening in the center of this paper leaving about 1 inch or more margin all around.

Make the Picture

1. Take the other sheet of paper. Fold on the ends just like you did the first paper in Step 1.
2. Draw a picture or paste a picture on the center part of this sheet of paper.

Fasten the frame to the picture

1. Put the folded ends of your frame next to the folded ends
